- ✓ Gujarati

PROFILE

Dedicated Full Stack Developer with strong proficiency in **PHP** and the **MERN stack**. Passionate about building secure, responsive, and user-friendly web applications. Maintained a consistent academic record (improving SGPA) while successfully deploying real-world projects.

FEATURED PROJECTS

Real-Time Chat Application

PHP + MySQL

- Built a robust real-time messaging platform using **Core PHP** and **MySQL**.
- Implemented secure user authentication (Login/Signup) and dynamic message fetching using AJAX.
- Designed a responsive UI ensuring smooth experience across devices.

[Live Demo](#) | [GitHub](#)

Crowdfunding Platform

MERN Stack

- Developed a scalable donation system with campaign creation features.
- Secured backend using **Node.js/Express** with JWT Authentication and MongoDB.

[Live Demo](#)

Crowdfunding Website (V1)

PHP + MySQL

- Dynamic website with relational database architecture for managing funds.
- Includes a comprehensive **Admin Dashboard** for campaign oversight.
